TECHNICAL DINNER MEETING: 4 March 2020

Three Roof Projects Gone Wrong

Presented by:

Phil Dregger, P.E. RRC
Vice President, Salas O’Brien

Course Synopsis:

This presentation examines three roof projects and how novel but unproven procedures, inexperienced workers, or fast-paced construction led to preventable problems. By the end of the presentation, attendees will be equipped to avoid similar difficulties on their own projects.

Learning Objectives:

1. How power washing can inadvertently worsen rather than enhance the visual appearance of concrete tile.
2. The importance of pre-construction “mock-ups” before employing unproven procedures.
3. Why Type B flues have minimum required clearances from combustible material.
4. The importance of following manufacturer recommended “calibration” procedures before induction heat welding activities.
Meet your Presenter:
Phil Dregger is a Professional Engineer, Registered Roof Consultant, Fellow of the International Institute of Building Enclosure Consultants (formerly RCI), and Vice President of Salas O’Brien in Concord, CA. Phil has investigated problems in a wide range of roof and building envelope systems over the past 35 years. He has special expertise in wind damage, building code compliance, and condensation problems. Phil lectures often to industry groups, has authored many articles on roof technology, and is a recent recipient of the ASTM D08 William C Cullen Award and the IIBEC/RCI Lifetime Achievement Award.

When:       Where:

Wednesday March 4th, 2020       Scott’s Seafood Grill & Bar
Registration & Networking: 5:30 - 6:45 pm                   Jack London Square
Dinner Served: 6:45 pm                                                        2 Broadway, Oakland, CA 94607
Presentation / Q & A: 7:00 - 8:15 pm                                      Parking Garage is Hourly w/ Validation Discount

Cost:       How to Register:

Registration:                                     Online Registration at:
